We are back from a great vacation in Tennessee where my family lives. Every month I try to write something in this little area that pertains to the most current happenings of the club. This month I am adding a page that contains a letter that my mother wrote back in the 70's. My family was always involved in R/C car racing or

Slot Car racing. My parents did not have separate activities in their lives. If it couldn't be done as a family with us kids involved, it wasn't worth doing. I guess that's why I am happy to be at trials and events with Don....that's how I was raised. When you read this letter, don't assume it only applies to racing. This is how I truly feel also, being involved in a mostly men's world of Gundogs. I hope the men show this article to their wives and more choose to get involved as I have. It truly would be great to have more women companions in the field with me.

## **What Every Woman Should Know About R/C's (or be happy he's at home with his toys)**

By: Judy Beaver (My Mother)

To begin with, I have put myself in a peculiar position in the last 14 years. I have received the evil eye from many a wife and still get it. Mainly because of my interest in hobbies their husbands enjoy. One reason I have this interest is I have taken the time to do so and as a result I have raced go-karts, built model cars, learned to scuba dive, navigate our boat, talked on our C.B. radio, taken part in slot racing, learned to shoot skeet and now R/C car racing. With all this I have also managed to raise two kids and tend house. I can knit, do ceramics and belong to a women's organization. I might add, with this I didn't need a babysitter as the kids went and still go where we go and they are no worse for wear from it. It has, if anything broadened their scope on life and taught them how to act with the public. They have gone with us on all our trips, not dragged along as they have taken part in what we did and do. I have been told that I sometimes get along better with the men than with the women. This in part is true because when I run across the wife who constantly complains about her husbands hobby and how much time he spends on it, I consider her more of a shrew than a good wife.

First, about my philosophy. When a man works 40 hours a week, sees that all his family obligations are met, bills etc., he should be allowed some kind of a hobby besides cutting the lawn and house repairs. Husbands will find a hobby and the kind depends a lot on the wife's attitude. Most husbands like their wives to take part in their hobbies. (if yours doesn't maybe it's because he sees it as an opportunity to get away from the griping.) As for this philosophy, would you rather your husband pour alcohol in his engine or in his belly? Would you rather he sit home and work on his car or be away from the house finding his pleasure elsewhere? I have heard "all he does is work on that car!" Mine does too, but he's home doing it and since I too am in his R/C hobby we can talk about the same thing. We are on the same wave length. In our house, it's not yours and mine, its ours.

Second, no hobby involving the public is just a "mans" hobby unless he has a reason to make it that way. I haven't felt left out of place by sometimes being the only woman at events or meetings, as with every hobby we have been in, the men have been gentlemen in truest sense of the word. We have also met friends in our hobbies that are all you could ask for in friends, but most rewarding is that they are all over the USA and Canada. If you're not involved in your husbands hobby, you no doubt complain about his friends. This usually accompanies the griping syndrome. Wouldn't you rather his friends be "Joe Blow" instead of "John Barleycorn?"

All of our friends aren't just men. Some of them do have wives with the same attitude as mine. There are a few in our club that are the same way. Some of you may say "I don't know about anything mechanical". Whose fault is that? If you really want to know, you have ears to listen with, eyes to read with and a mouth with which to ask questions, plus a mind for comprehension. Use those God given tools to make your family circle complete.

So...women out there, put down your knitting, get involved. There's always something to be done, and since I'm talking about R/C cars, some of the things you can do and be of help are to: Pit for him at the races (fingernails grow back and dirt washes off, ) take part in the club activities. You can be on a phone or mailing committee, secretary, treasurer, help with the lap counting, be race director (as the man are racing and could use an extra hand.) Help in planning the races. GET INVOLVED. Don't let him have all the fun while you're home watching the boob tube. Take the kids, they don't tie you down unless you let them. You have to watch the kids at home, so why not at the races where you can mix in some fun?

## Letter from the President

### AZPDC President

2012-2013

Karl Von Wolff

It sure was nice to get back to running trials wasn't it? The weather was great, the dog work was exceptional and it was great seeing everyone, it was also good to see a lot of new folks out and about. For a treat, when I went out Friday evening for a run with my pups, we saw some antelope off in the distance, and on the way out I saw some elk. You can't beat being back up north again in the cooler weather.

With hunting season well behind us, hopefully all of you have been spending some time getting training sessions in. I know I have, and it's great to see the dog's progress from year to year, slowly starting to get in synch with what you want, and really having some light bulbs go off. I want to raise my hands in celebration every time we have a training session where the pups from 2 years back are now starting to look like gun dogs. I can't wait for next hunting season! For those getting out, just a gentle reminder to keep an eye on the temperature and have plenty of water for your hunting partners.

In my opening address to the membership in last month's newsletter, I mentioned a few goals that I had for this year as well as a couple of immediate action items. Unfortunately I was not able to identify a new location for June's meeting in more central location, but I will by the July meeting, so June's meeting will be at the Denny's at the same location. On a more successful note, we are now partnered with the Grand Canyon Brittany Club to host a Hunt Test the weekend of October 6-7. We are in the process of getting the paper work submitted right now and lining out a location to hold the test. Currently we are looking to hold it in the Paulden area. I'm going to be asking the club membership to volunteer to help out. We will need gunners, bird planters, and in general all around help.

I also mentioned that I'd be talking about volunteering and more specifically broader participation from a larger portion of the club membership. Well I have 2 opportunities, as you read in the May trial report, we still don't have June trial chair. Here's an excellent opportunity to give back to the club by chairing the trial, meet and interact with a bunch of the club folks, and get a free entry for each day! That's right, if you chair a trial, you get 2 free entries for your help, 1 dog per day, so please let me know ASAP if you can chair the June Trial. The second opportunity to help out is on the monthly trial reports, I could really use someone to help out doing the write ups for each trial. My responsibilities have expanded since I first started helping with the trial activities, and this would surely lighten my load each month when the newsletter is ready to be distributed.

Hope to see you all at the next trial.

Sincerely,  
Karl Von Wolff  
AZPDC President

**Arizona Pointing Dog Club Mission Statement**

The Arizona Pointing Dog Club is the organization for the hunter who wants to do more than just hunt with his or her dog during hunting season. The Club promotes the training and use of pointing dogs in the sport of upland bird hunting in order to enjoy the sport to its highest potential.

We have a general meeting once a month featuring films or guest speakers with information, tips and ideas regarding upland hunting, dog training and related hunting concerns in Arizona. The Club sponsors one event per month in addition to regular meetings. Some of the more popular events are training sessions, training seminars by professional trainers, AZPDC Gundog and Hunter Class Field Trials, NSTRA (National Shoot to Retrieve) Field Trails, AKC (American Kennel Club) Hunt Tests, trap & skeet shoots, dinner evenings and even weekend hunts for Mearns and Scaled quail during hunting season.

Interested in participating on a committee? Mark the committee where you would like to serve. If you have other skills you will be willing to share with the club, please specify.

# MAY TRIAL

By Karl VonWolff

Well it was sure nice to be back running trials this past May! Russell and Lesa Page chaired this trial again and we sure appreciate their stepping up to cover May's trial. We had a ton of folks help them out which was also much appreciated. Kline Hall once again hauled the club trailer up there, as well as hauled it back to Mormon Lake for storage, Kline thanks a bunch for helping with that. Jim Cassara brought up his Rhino and setup the field as well as take it down which was a huge help, and Ron Horn brought up the birds Saturday Morning. To everyone else that helped out in one way or another, Thank You, Thank You, and Thank you.

Does everyone remember the good days when we had club members with kids that came up and they planted the birds in the fields? It looks like some of those kids may have grown up and found other interest and are not available for planting, so in addition to running and judging we were also planting birds as well. This past month, Patrick Flannigan volunteered to plant the Shooting Dog Fields (he got the same rates that the kids did!), and boy did those of us running Shooting Dog class really appreciate it! Patrick you're always welcome at our Trials!

Attendance for May was good to maybe a little light, but we did have some pretty impressive runs. In Gun Dog, Ken Wicht handling Lucy and Tabos (Doug Walsh's dog) put the hurt to the field taking first place both Saturday and Sunday. For those that remember (as it was before my time in the club), isn't it great to have previous Club Members, Ken Wicht, Scott Montini, Doug Walsh, and Pat Heusted back at the trials, they have some remarkable dogs and are just plain fun to have around. Other notable runs in Gun Dog include the former Sr. Hunter Dogs of Loot, Gretchen, Sugar, and Belle, all capturing placements. Way to go Larry, Brian, CJ, and Alan.

In shooting dog, the Pages ruled on Saturday with Piper and Katie. CJ running multiple classes both days had Jake running like the bird finder he is, and it was nice to know that my mutt from last year can still find birds. But the run of the weekend had to go to Maverick and Jim Cassera, with as much torment as I give Don and Wendy about their Brittany's, this may have been the Brittany revenge. I was the judge for the run, and it was impressive, he was rock solid on 5 finds, with retrieves to hand, a stop to flush as well as back! Nice Job Jim!

In hunter class, it was nice to see Bob Armstead and his Llewelin Setters come up and have a good run on Saturday. Ki and Gi did their thing once again. Sunday had a couple of new comers with Rod and Jake picking up placements. Keep it up guys.

How about the new trial awards? We're now giving out plaques to handlers when dogs place for the first time and then placement tabs for each subsequent placement. We were able to get the plaques at a great cost, comparable to what a ribbon was running, so this should be a money saver for the club going forward. If you had a placement at the February trial, please contact me so we can ensure you get your plaque as well as your placement tab.

June's trial is being changed to a double points trial since we had 2 points trials cancelled this year. Also, the June trial may be in jeopardy, the Kaibab National Forest extended its fire restrictions to include no shooting of fire arms, so Smith Tank is out for us as a location for June. Currently Brent is trying to get us setup to go again at Pine Hill in the Coconino NF, we tried for Kendrick but it's closed due to Antelope Fawning. If we are able to get our permits for Pine Hill, ***we still have an issue of not having a Chair for the June trial. If you can Chair this trial, please let us know as soon as possible.*** We now have Chairs for the July and August trials, so along with June we need someone to Chair the TOC in September.

Lastly, I could use some help with managing the trials, specifically doing the write ups. If you plan on attending the trials going forward and would like to volunteer to help with the write ups, please contact me. I sure would appreciate it.

# May Trial

# 2012 Trial Schedule

Please look at the Trial schedule, Additionally, please notice that September Trial does not have a Trial Chairperson assigned, if we don't get a volunteer for this Trial, it will be cancelled. So please, if you can, volunteer to chair. If you don't know what to do, or are concerned about the amount of work, there are several people that will help out, provide guidance, help with setting up and taking down the fields. If you're interested in chairing, please let Karl Von Wolff know, you can send an email to him at [karlvon@sprynet.com](mailto:karlvon@sprynet.com).

Looking forward to seeing everyone at the next Trial!
